## The Wrong Connection:

When it comes to meeting DOT requirements there is a lot to know. Determining which hose goes with what fitting at what pressure can drain your time. The stakes are high the wrong combination of hose, fitting and crimping equipment can lead to fines or worse yet, loss of life. Parts rooms often have a scattered and disorganized selection of mismatched and non DOT-complaint air brake fittings, purchased from some inexperienced parts salesman. So how do you make the right connection?

## Barnes Distribution has the Solution!

When it comes to Air Brake components, we understand that having the right part, when you need it, is crucial. We are able to optimize customer inventories in this critical product line through our time proven on site service, highly trained sales personnel, wireless Point of Purchase information and manufacturer support network. Making sense of what you have is what we do. We will take the confusion and complexity out of this product line by creating a custom system and instituting Lean processes allowing you to expedite repairs and keep your trucks on the road.

## Our Solution Includes:

- Free Initial Consultation consisting of an Inventory Survey, Cost Analysis and Savings Recommendation Report
- Inventory organization including bar code labeling with cross referencing option
- Dedicated Service Representative providing on-site service to meet your needs
- Single source for all your DOT Brass and Air Brake Hydraulic Hose and Fittings
- 100% Satisfaction Guarantee
