

Wipe Away Excess Inventory!

Introducing the Barnes Distribution Heavy Duty Wiper Blade Program

WIPE AWAY EXCESS INVENTORY!

Poor Visibility:

Having the right part at the right time is critical, especially when it comes to Wiper Blades and accessories. Finding the right wiper blade which conforms to your durability requirements is a daunting task which often leads to inflated inventories and obsolete stock. Selecting the right vendor can be an even bigger challenge. Many fleets source these items from multiple vendors on a "cost-only" basis. This increases back office processing expenses and drives up the acquisition costs associated with this critical product line. So how can you get a clear line of sight on spending?

Barnes Distribution has the Solution!

Making sense out of what you have is what we do. We are able to optimize customer inventories in this critical product line through our time proven on site service, highly trained sales personnel, wireless Point of Purchase information and manufacturer support network. Creating custom systems and instituting Lean processes, expedites repairs and allows you to keep your trucks on the road.

Our Solution Includes:

- Free Initial Consultation consisting of an Inventory Survey, Cost Analysis and Savings Recommendation Report
- Inventory organization including bar code labeling with cross referencing option
- Dedicated Service Representative providing on-site service to meet your needs
- Single source for all your wiper blades and accessories
- 100% Satisfaction Guarantee
