Runaway Purchases:

Even when your maintenance budget gets tight, there are still some products you can't do without. ABS Cords and Coiled Air Brake Lines fall into this category, because they are critical to the safety and operation of your fleet. When sourcing these items you have a myriad of products and vendors to consider. Many fleets source these items from multiple vendors on a "cost-only" basis. This increases back office processing expenses and drives up the acquisition costs associated with this critical product line. So how can you hit the brakes on spending?

Barnes Distribution has the Solution!

When it comes to ABS Cords and Coiled Air Brake Lines we understand that having the right part, when you need it is crucial. We are able to optimize customer inventories in this critical product line through our time proven on site service, highly trained sales personnel, wireless Point of Purchase information and manufacturer support network. Making sense of what you have is what we do. Creating custom systems and instituting Lean processes, expedites repairs and allows you to keep your trucks on the road.

Our Solution Includes:

- Free Initial Consultation consisting of an Inventory Survey, Cost Analysis and Savings Recommendation Report
- Inventory organization including bar code labeling with cross referencing option
- Dedicated Service Representative providing on-site service to meet your needs
- Single source for all your ABS Cord and Coiled Air Brake Lines
- 100% Satisfaction Guarantee

To get started ask your Barnes Distribution Representative today!
