

## Carpet & Upholstery Cleaner

Green Carpet Care™ & Upholstery Cleaner removes over 95% of the most common stains in carpets and upholstery listed by The Carpet & Rug Institute (see reverse). Available in a convenient aerosol can or biodegradable cloth wipe, Green Carpet is fast and effective for cleaning carpets and upholstery.

- Without sacrificing effectiveness, our carpet cleaning solution poses no danger to humans, animals or the environment. In fact, cleaning with Green Carpet can remove already toxic chemicals existing in carpets.
- Producing zero fumes, Green Carpet contains none of the hazardous chemicals normally present in commercial solutions.
- By reducing the need to buy multiple formulations and products, Green Carpet provides a universal solution to carpet cleaning activities.
- Leaving no sticky residue, Green Carpet eliminates the dirt and grime that often sticks to the residue of other lower quality products.
- Formulation is a powerful nano-dispersion that pierces chemical bonds that hold dirt, oil and other types of residues together.

\* Common cleaning can remove already toxic chemicals existing in carpets

<b>Size</b>	<b>11 oz Foaming Aerosol</b>	<b>Wipes Individual Foil Packages 12 per box</b>
<b>Item Number</b>	<b>BET-0039</b>	<b>BET-0040</b>
